

Look and Feel Your Best at POSH this Summer

POSH is now in its fourth month of opening, and they couldn't be more grateful to the community for giving them such a warm welcome. The Spa had its official Grand Opening on Friday, May 11th which included a ribbon cutting ceremony by Mayor Mary Marvin. As we all transition from Spring into Summer, here are a few of their favorite services to get you ready.

One of the more popular "quick" services is eyebrow and eyelash tinting. With a tint you can flaunt natural, fuller looking brows and lashes with a put-together look without the hassle of makeup! Eyebrow tinting can be performed alone, with an eyebrow shaper for more defined brows, or as part of their HD Brow service which also includes brow shaping and styling for an ultra-polished finish. The Estheticians at POSH custom blend colors for each client to transform brows and lashes from fair and sparse to full and fabulous in under 20 minutes.

Hours in the sun, or fifteen minutes at POSH? Sunless, airbrush tanning is a faster, safer, and healthier alternative than exposing your skin to harmful UV rays. They use SunFX spray tanning equipment and products. This Australian line delivers a beautiful, natural looking tan with its water-based, organic formula. Each client is consulted on the tan they are

looking to achieve, then the product is quickly applied and dried leaving it to develop for 6-8 hours. After showering, you are left with a fresh glow that lasts up to one week. Spray tan packages of 5 or 10 are now available for purchase in-store or online so you can maintain your tan for weeks to come.

Whether you're headed to a special occasion, dinner, a family photoshoot, or just a night out with the girls, let POSH take care of your makeup so you can sit back and relax before heading to your event. The professional makeup artists at POSH are specially trained to enhance your natural beauty. Makeup application takes 30-60 minutes depending on the desired look. This includes foundation or tinted moisturizer, concealer, bronzer, blush, eyeshadow, eyeliner, mascara, and lip color. As an add-on, you can enhance your makeup with false lash-

es. If you want to add definition, depth, and luxurious volume to your look, then this extra service is definitely for you! Their makeup artist's work with the finest iconic and professional brands including MAC, Stila, Becca, Anastasia Beverly Hills, Morphe, Laura Mercier, Makeup Forever, and Urban Decay just to name a few.

Also included in their expansive menu offering is full body and face waxing services. We only use wax formulated for sensitive skin; a Green Tea soft wax and Cirepil's French hard wax. It is recommended to grow hair to 1/4 inch prior to waxing. The Estheticians take the utmost care to provide clients with a completely hygienic and comfortable waxing experience.

Book your appointments today and get your Summer skin glow-on at POSH, located at 118 Pondfield Road, Bronxville. Phone: 361-1277 Website: poshbronxville.com
